SUMMARY

Highly motivated full-stack engineer with 5+ years of experience specializing in developing scalable web applications and RESTful APIs using **React**, **Node.js**, and modern cloud technologies. Proven ability to lead teams and optimize application performance, resulting in significant improvements in user experience and efficiency.

EXPERIENCE

Senior Software Engineer   Jan 2020 - Present
Tech Solutions Inc.   *San Francisco, CA*

- Led a team of 5 developers in the design and development of a new e-commerce platform, resulting in a 40% increase in online sales within the first quarter of launch.
- Architected and implemented RESTful APIs for the customer management module using **Node.js** and **Express**, ensuring seamless integration with front-end applications and third-party services.
- Optimized database queries and implemented caching strategies, improving application performance by 30% and reducing server load by 20%.
- **Technologies Used**: **React**, **Node.js**, **Express**, **PostgreSQL**, **AWS**, **Docker**, **Kubernetes**
- **Key Achievements**: Improved application performance by 30% through database optimization and caching strategies. Led the successful launch of a new e-commerce platform, contributing to a 40% increase in online sales. Mentored junior developers, fostering a collaborative and high-performing team environment.

PROJECTS

Portfolio Website | *Personal Portfolio*

- Developed a responsive and visually appealing portfolio website using **React** and **TypeScript**, ensuring cross-browser compatibility and optimal user experience on various devices.
- Implemented a dynamic content management system (CMS) using headless CMS principles, allowing for easy updates and maintenance of project information.
- Utilized **TailwindCSS** for rapid prototyping and styling, resulting in a consistent and modern design aesthetic.
- Deployed the website on **Netlify** with continuous integration/continuous deployment (CI/CD) pipelines for automated builds and deployments upon code changes.
- Tools: *React*, *TypeScript*, *TailwindCSS*, *Netlify*, *Headless CMS*
- Demo: https://johndoe.com
- GitHub Repository: https://github.com/johndoe/portfolio

EDUCATION

University of California, Berkeley   Berkeley, CA
B.S. in Computer Science   *2013 - 2017*

- GPA: 3.8
- Relevant Coursework: Data Structures and Algorithms, Operating Systems, Database Systems, Software Engineering, Artificial Intelligence
- Achievements: Dean's List (2015-2017), Graduated Cum Laude

TECHNICAL SKILLS

Languages & Frameworks: **JavaScript**, **TypeScript**, **React**, **Node.js**, **Express**, **Python**
Databases & ORMs: **SQL**, **PostgreSQL**, **MySQL**, **MongoDB**, **Sequelize**, **Mongoose**
Cloud & DevOps: **AWS**, **Docker**, **Kubernetes**, **CI/CD**, **Git**, **Terraform**
Developer Tools: **VS Code**, **Webpack**, **Babel**, **Jest**, **ESLint**
Soft Skills: Team Leadership, Problem Solving, Communication, Agile Methodologies, Mentoring
